Designing a book cover is a very complicated task, many factors need to be considered. The first we see is the cover when we walk into a bookstore or browse online retailers. That's why it is so important to have a unique book cover that stands out from the rest of the covers. I think the outside is as much important as the inside. I can't count how many times I bought a book just because of the cover, and I believe I'm not the only one.

Process

1. Step

We will discuss your ideas, the genre, references you gathered.

2. Step

I will send 2-3 rough sketches based on our conversation and you can choose what you like the best. We can even combine different sketches into one, after that, we will discuss a price.

3. Step

I will send the first half of the invoice through PayPal, and I start working on a much more detailed sketch.

4. Step

After you are satisfied with the detailed sketch, I start rendering the cover, show some color mockups if needed, and discuss the fonts and additional text for the cover. I regularly update you about the process.

5. Step

The cover is finished. If you are satisfied with it, I send the last part of the invoice through PayPal.
